Elevate is a night showcasing the brilliant and diverse talents of disabled musicians from Drake Music Scotland. This gig is a celebration of diversity, creativity and the power of music.

The line up features a number of groups and solo performers playing classic covers and original compositions, all backed by a house band. The evening culminates in a headline set from The Varifocals, an over 60s rock band.

This is a night to recognise and uplift the voices of disabled artists, putting them where they belong – centre stage, unapologetically claiming their space in Edinburgh's music scene.
